5. At 1 p.m. on 12 November, a Li-2 aircraft was observed landing at the field. At about 4:30 p.m. on 16 November, two MiG-15s or U-MiG-15s were observed flying over the field. [redacted]

[redacted] At about 8:15 p.m., a swept-back jet aircraft with set position lights once circled over the field. At 8 a.m. on 17 November, a MiG-15 or U-MiG-15 towed a sleeve target which was attacked by two swept-back jet fighters; no rounds were fired. During the morning, flights were continuously made by MiG-15s or U-MiG-15s. Three searchlights were observed between the road to Neverin and the radio installation on the road to Glocksins.<sup>1</sup>

1. [redacted] Comment. It is believed that Neubrandenburg airfield is occupied by a fighter regiment. The number of MiG-15s assigned to the regiment has not been determined as a portion of the aircraft is apparently parked in the hangars. The regiment conducted little air activity during the period under review.
